

SUSHI PIZZA by Patricia Thoma

Sneak peak inside a picture book by an award-winning picture book illustrator Discuss this article

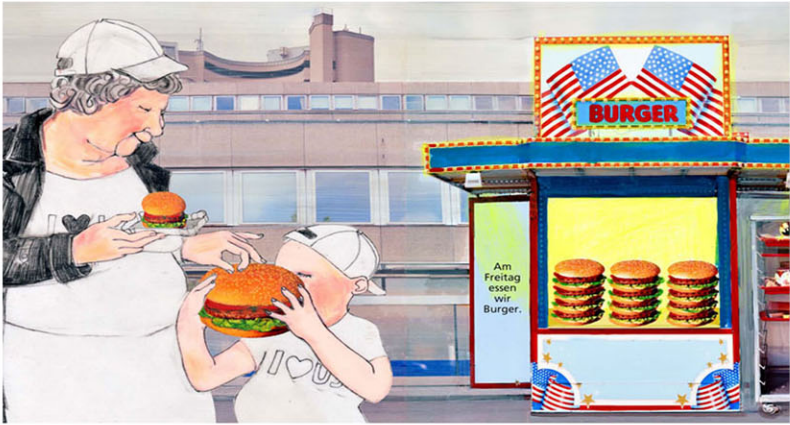

This picture book, *Sushi Pizza*, which is yet to be published, is by Patricia Thoma, an award-winning German-based fine artist and picture book illustrator. The idea came when Thoma had been travelling extensively through capital cities around the world, and she noted they are all very multicultural in their culinary offerings, both with authentic iterations of global cuisines, but also creative fusion offerings.

“Of course, this is also the case for Abu Dhabi,” she tells Time Out. “I strongly feel that, through food, you can get to know another culture and country in a really nice way. And if you share food with people from another country, you can feel very close and even make friends with them.” With that in mind, the story follows a child and grandmother, as they sample staple dishes from all over the world.

Find her at the Abu Dhabi International Book Fair's Illustrators' Corner on Thursday April 27 (6.30pm to 7.15pm) and Sunday 30 (7pm to 7.45pm), discussing her work.
